

RECOMMENDED BUILD SEQUENCE

1. Fuselage.
2. Horizontal and vertical tail - attach to fuselage.
3. Cockpit interior, headrest and windscreen.
4. Lower wing - attach to fuselage - add fuselage bottom part. Make sure to align correctly with wing trailing edge.
5. Wing fillets - curve gently and start glueing from the back. Attach to wing and fuselage in small lengths only - do not try to fix in one run.
6. Engine cowling and propellor.
7. Undercarriage.
